

New Member Development

Branch 34 has done an outstanding job of maintaining our membership near the 210 level. This is a job that falls to all active members assisted by the Membership Committee. Another great tool for new member development is the state SIR web-page at www.sirinc.org. along with our own Branch 34 Web site at www.sirs34.org. Bring a prospective member to one luncheon meeting as a guest, have him fill out an application for Board review, and he is voted in or added to our waiting list.
